“ *Bob Garrison grew up as close neighbors and we were the best of friends. We roamed the mountain behind my home and he carved our initials on a Beech tree. We walked up the path to the city reservoir and he saved me from a copperhead snake bite. Frank Neely was a mutual friend and we hung out together until we graduated high school and went our separate ways but always kept in touch. I loved him dearly and I will always have a place for him in my heart.*
